FRONT & REAR SUSPENSION SET UP

Check & Adjust Where Applicable

Tyre pressures, ride height, damper settings, camber, castor, toe, rear camber, toe and front to rear wheel alignment.

STANDARD CHASSIS: Rear toe and front to rear wheel adjustment are dependent on the differential being installed correctly.

£ 499.00

PLEASE NOTE: The adjustment procedure can only be carried out if all the relevant parts are correctly fitted and are in a serviceable condition. Price does not allow for replacement of faulty components or reassembly of incorrectly assembled parts.

Prices are based on a Rolling Chassis and are for Labour only

WEATHER EQUIPMENT

Fit Soft Top & Frames

£ 320.00

Fit Tonneau Cover

£ 290.00

Fit Side Screens

£ 195.00

Above Prices do not include any adjustments to screen rake etc.

Ideally weather equipment should be fitted prior to painting ~ we will take all possible care, however if the car is painted we cannot accept responsibility for any damage to the paintwork that may occur

We can offer further in-house stages of build for which we would be pleased to quote. If required we have build agents who would be pleased to quote for a turnkey car.
